

Thanks

Thank you for your interest in YVAPE. We are excited for CONTACT.SCHOOL to utilize the program. You can start enrolling students at any time by visiting YVAPE.ORG.

Below is more information on the YVAPE program, including the benefits and what administrators and students can expect after enrolling. We encourage you to share this information with other school administrators and staff. We're also happy to provide a brief virtual presentation to your school.

Please contact me to schedule a presentation or if you have any questions. We look forward to working with you!

YVAPE AT A GLANCE

COACHING CALLS + EDUCATIONAL VIDEOS

Students complete two phone sessions with a YVAPE coach and watch at least three YVAPE videos. The program can be completed in 1-4 weeks, depending on the student's schedule.

YVAPE Coaching Calls focus on building rapport with students, helping them to think about why they use nicotine and/or marijuana and how to make healthier choices.

YVAPE Videos educate students on the mental and physical effects of nicotine and marijuana use; how to deal with stress; how to take personal responsibility; and how to ask for help.

HOW YVAPE WORKS

SCHOOL ENROLLS STUDENT IN YVAPE

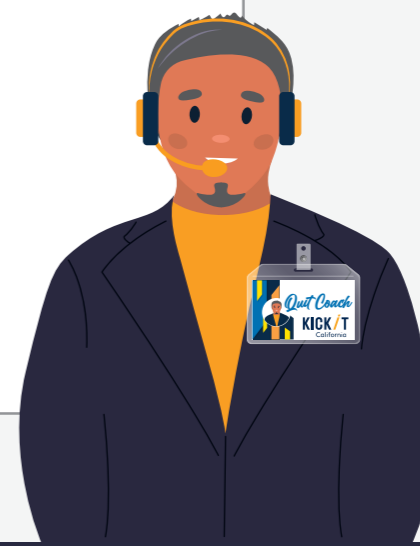

- 1**
The student is caught with nicotine and/or marijuana at school. The school recommends the student complete YVAPE. The student must be at least 12 years old and have access to a phone and email.
- 2**
The school gets consent from the student (and parent if required by the school) to enroll the student in YVAPE.
- 3**
School administrator visits YVAPE.ORG and submits the following information: Student Name, Date of Birth, Grade Level, Email, Phone Number, Language. YVAPE coaching and videos are available in English and Spanish.

YVAPE COACH CALLS STUDENT
